Troy,
I thought it would be beneficial to brief you on the item, as I don't think you are aware of the history of the issue.

Just after the holidays this past year, the power was out in downtown Flint for a period of (6) days. The generator ran flawlessly during this time and the building EM lighting, as well as building envelope performed very well. On day number (7), the generator seized, actually throwing a rod through the oil pan. To add salt to the wound, a few hours later the power was restored and the main electrical switch gear blew. The electrical switch gear was tended to immediately. We submitted the generator issue as well as all other effected items to our insurance carrier. This was a very large issue – just about every major building system had transformers, control panels, etc., which required immediate replacement.

Ridgway, and I, submitted with request to replace the entire generator – rather than just the motor – figuring this would be the best long term scenario for all parties. We recently received a delayed response from the insurance carrier. Our facilities staff is requesting an alternate bid to replacement, and we expect to have a decision with a couple weeks.

The generator will not be operational on June 4th, and most likely will take a few more weeks to completely be restored. The EM lighting is a result of a required generator replacement.

Subject: Lease #11530 - Emergency Lighting Failure (Notice to Cure)

Dave/Ridgway,

I submitted the attached Notice to Cure on May 27th due to health and safety concerns for occupants at the Michigan School for the Deaf resulting from a power outage on May 22nd. The emergency lighting failed and we are concerned for the safety of building occupants to egress the structure during an emergency.

- **Will the emergency lighting be available by June 4, 2014, if there is another power outage?**

Please respond by Close of Business tomorrow (June 3, 2014) with how this critical safety issue has been resolved.

Thank you,

Troy Bos, Lease Compliance

Importance: High

Troy,
As follow up to our conversation this afternoon, I have attached the approved authorization to have Cummins Bridgeway provide a new 125kW generator to MSD. This document was sent under separate cover to CB earlier this date. The generator will take up to 6 weeks to deliver. In the interim, we will be providing a leased generator for back-up EM power.

Thank you,

Dave Lurvey

Subject: RE: Lease #11530 - Emergency Lighting Failure (Notice to Cure)

Dave,

EMERGENCY LIGHTING is a critical health and safety issue to the occupants of the building. Your e-mail below states the emergency lighting system has not been operational for five (5) months putting the children and staff at risk. In addition, it should be noted that emergency power is needed to run the elevator as the school has children in wheel chairs that take classes on the second floor during the regular school year.

Safety of the students and staff at the Michigan School for the Deaf is our number one concern. **If this system is not operational by the end of the day on June 4, 2014, the State of Michigan will hire a generator company to conduct emergency repairs to the generator unit** and deduct all cost from the rent as the attached Notice to Cure states.

If you have any questions, please call me at (517) 335-6877.

Sincerely,

Troy Bos, Lease Compliance
